EXPERIENCE

Consultant (Assistant Manager) **Deloitte** *Gurugram, IND* **Oct 2024 - Present**

- Designed and developed Google Merchant Console and Caterpillar MineStar in HTML, CSS, JavaScript, Angular and Material UI.
- I collaborated with internal & external team members, specializing in developing a frontend for seamless integration.
- Written the test case to utilize the components using Jasmine.
- Utilized Git for version control to systematically monitor code modifications, facilitate collaboration, conduct code reviews, and uphold code integrity.

Senior Software Engineer **Locobuzz Solutions Pvt. Ltd.** *Gurugram, IND* **Jun 2021 - Sep 2024**

- Designed and developed customer experience (CX) tools in HTML, CSS3, JavaScript, Angular and Material UI.
- I collaborated with external team members, specializing in developing a frontend for seamless integration with CRMs such as Salesforce, Slack, Freshworks, and others.
- Utilized Git for version control to systematically monitor code modifications, facilitate collaboration, conduct code reviews, and uphold code integrity.

EDUCATION

Master of Computer Application **2018-2021**
Banaras Hindu University, Varanasi 9.26 CGPA

Bachelor of Computer Application **2014-2017**
Tilka Manjhi Bhagalpur University, Bhagalpur 74.97%

PROJECTS

Caterpillar MineStar

- Technologies: Angular, Typescript, JavaScript, RxJS, NgRx, Signals, HTML, CSS/SCSS, Jasmine.
- Caterpillar's MineStar is a comprehensive suite of technology offerings designed to help mining operations improve safety, efficiency, and productivity. It encompasses a wide range of solutions, from basic fleet management to fully autonomous systems, and is tailored to the unique needs of both surface and underground operations.

Google Merchant Console

- Technologies: Angular, Typescript, JavaScript, HTML, CSS/SCSS, Material UI, Jasmine, Scuba.
- For retail businesses who need to improve their online shopping experience and increase sales, the VAISR Merchant Console is a powerful tool that allows merchants to easily manage and customize their product listings.

CX Suite

- Technologies: Angular, Typescript, JavaScript, HTML, CSS/SCSS, Material UI.
- CX Suite is a new generation digital customer experience management platform that completely transforms business and helps build everlasting relationships with customers like never before.

CERTIFICATION

- Certified by ng-India for attending ng-India Angular Conference 2024.
- Qualified UGC-NET for Assistant Professor by NTA in 2019 and 2020.

SOFT SKILLS

- Quick Learner with a positive attitude, proper management and leading ability.
- Punctual with deadlines and have a professional approach.
- Hardworking with a *never give up* attitude.
